Ricky M Sanderson

UI UX Designer

Phoenix, Arizona | rickymsanderson@gmail.com

Portfolio: rickythegreat1.github.io/ricky-sanderson-portfolio

UI/UX designer with team-based SaaS research, interface design and shared-studio web experience. Uses Figma, WordPress and Elementor, Google Analytics and Tag Manager, with AI-assisted prototyping and a visual-design background.

Skills and Tools

Figma: auto layout, components, variants, variables, design tokens and shared libraries. WordPress, Elementor, WooCommerce, Squarespace; HTML, CSS, JavaScript, PHP. Accessibility checks, Google Analytics and Tag Manager. Adobe XD, Illustrator and Photoshop. AI tools: Claude Code, Codex, Gemini and Cursor. Additional tool experience: Replit.

Relevant Experience

Lofty Labz | Co-founder, Design and Automation | Current practice

Contribute website layouts, interface design and brand assets in a two-person design and development studio, alongside a development-focused co-founder.

Crossroads Education | Junior UX Designer and Researcher | 2017–2020

Contributed UX research and interface design for Element and Nexus under a lead UX designer, collaborating with the CTO in an Agile and Scrum team.

Used interviews, landscape research and personas to inform interface decisions; contributed reusable UI foundations with atomic design and Material Design principles.

Interface work: Crossroads Education

Selected Project Work

PCx Career Path | Paid assessment and related public work sample | 2026

For a paid July assessment, delivered an AI-assisted frontend prototype and assessment of agent priorities, leader verification and career-path configuration, using mock data with no backend. A related, self-directed public sample explores those workflows from PCx planning materials; it is also a prototype, not a production deployment.
